Subject: RE: SO2 second round designations

Hi Ms. Lipeles,

Thank you for your questions on how to access certain information from the docket for this round of SO2 designations. I've copied Andy Chang who may be able to assist you with your questions.

Subject: SO2 second round designations

Ms. Jones,

We are working with the Sierra Club regarding the second round SO2 designation pertaining to Ameren's Labadie power plant in Franklin County, Missouri.

Ameren's comments and exhibits were uploaded today to the docket at regulations.gov (ID: EPA-HQ-OAR-2014-0464-0326), but several exhibits are not accessible to the public. They are neither viewable nor downloadable. The following explanations are provided:

- Exhibits 3, 4, 8, 11, and 16 Parts 2 and 3: "Abstract: Please contact the EPA Docket Center, Public Reading Room to view this document. Address: 1301 Constitution Ave. NW, Room 3334, Washington, DC 20004. Telephone: 202-566-1744; Fax: 202-566-9744; Email: docket-customerservice@epa.gov

Reason Restricted: This attachment is restricted to show metadata only because it contains copyrighted data.”

- Exhibit 7, Appendix E – data submitted on CD
- Exhibits 12-14 – data submitted to EPA and DNR by Ameren via secure ftp site to which Ameren sent EPA and DNR passwords
- Ex 15 – data submitted via hard drive

How can we obtain copies of these exhibits?

Thanks in advance for any assistance you can provide.

Maxine Lipeles
